Develop an SPE method. Find the right HPLC column and guard system or the perfect vials and syringe filters for your application. Optimize your HPLC methods in minutes with our easy-to-use interactive tools, developed by scientists for scientists. We designed these tools to help you get your work done faster.

www.phenomenex.com/tools

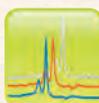

Application Structure Search

Immediately find key HPLC, GC, and Sample Prep applications for small molecules and biomolecules by drawing the structure or the functional groups of the analyte.

HPLC Column Match

Find the right Reversed Phase HPLC/UHPLC column for your method. Select columns by application, compound, USP classification, and more.

Application Name Search

Find key HPLC, GC, and Sample Prep applications for small molecules and biomolecules by entering the name or synonym of the analyte.

Chiral Screening Services

From developing a brand new chiral method for chiral screening to optimizing your existing chiral method, we can help. Let us simplify your chiral HPLC analysis with our FREE screening services.

Vial Finder

Easily find the right vial or vial kit for your sample collection needs. Whether you are looking for an amber vial, crimp-top vial, autosampler vial, or headspace vial, you will be sure to find it with the Vial Finder tool.

Core-Shell 2.6 µm Calculator

Receive estimated increases in efficiency and resolution, adjust flow rate and backpressure to desired conditions, and see how much cost savings you can bring to your lab by using core-shell technology columns.

Syringe Filter Finder

3-step tool designed to help you find the appropriate syringe filter to help you successfully remove particulates from your sample matrix.

Core-Shell 5 µm Calculator

Demonstrates how replacing 5 µm fully porous columns with 5 µm core-shell HPLC technology can deliver better chromatography, higher productivity, and cost savings.

GC Liner Finder

Find a liner by part number, geometry, sample type, or application in under a minute.

SecurityGuard™ Selection Tool

Immediately find the right universal guard column for your analytical or preparative column. SecurityGuard Universal Guard Cartridge system is guaranteed to extend your column lifetime.

SPE Method Development Tool

Develop Solid Phase Extraction (SPE) methods for sample cleanup and concentration in under a minute.

GPC Solvent Savings Calculator

Instantly calculate savings for your GPC polymer analysis.

Scale-Up Calculator

Quickly and easily scale up your analytical column to preparative dimensions.

GC Column Finder Web Tool

GC column selection, simplified! Choose from 5 easy ways to quickly find a Zebron column for your method in minutes
